Programme

Cluster “Energy efficiency and renewable energy sources” in the Baltic Sea Region Programme 2007-2013 contributes for an Eco Region.

The objective of the cluster is to improve the programme performance in regard to its relevance, effectiveness, and efficiency and to present the programme outcomes to a broader public.

Eight projects with 16 partners from six countries represent the cluster energy to develop together new solutions for an eco region.

The Cluster Energy is an example of corresponding EU projects to implement the European Union’s cohesion policy.

The event is hosted by the Hanse-Office in cooperation with the Cluster Energy.
